Collinwood Municipal Council Support Campaign for Re-establishment of Wheat Board

At a meeting of the Council of the Municipal district of Collinwood held on Saturday, Nov. 26, the following resolution was passed: That this council, recognizing the urgent need for the re-establishment of the Canadian Wheat Board as the only effective remedy for the deplorable conditions surrounding the wheat growing industry; gives its hearty approval to the plan of campaign submitted to it through the Municipality of Indian Head.

That a grant of \$15 be given their Wheat Board Committee for support of the campaign.

That a grant of \$200 be given to the Chinook and District Agricultural Society.

That a grant of \$25 be made to Sounding Creek Women's Institute for maintenance of Rest Room in Youngstown.

That one half of Mr. L. C. Milroy's Seed Grain advances be carried over until another crop is harvested.

That the following amounts be paid on school estimates for 1922: Bell Plains 25.00; Cando 100.00; Clarkson 25.00; Clover Leaf 100.00; Collinwood 100.00; Crocus Plains 50.00; Heathdale 100.00; Laughlin 100.00; Lexington 50.00; Mapleline 50.00; Myrtle 100.00; Peyton 100.00; Rainbow 100.00; Rearville 50.00; Stinson 50.00; Swan 100.00.

That the arrears of taxes on the following lands be cancelled: S.E. 33-26-7, w of 4; and N.E. 13-27-7 w of 4th.

That the assessed value of the following lands be reduced to: \$1600.00 S.E. 33-26-7, N.E. 13-27-7 and S.W. 34-26-7.

That John McLennan be paid 40.00 for two acres of land to be used as a road allowance on the south side of the S.E. 4-22-8 same to be applied on his taxes.

The following lands were struck off the Tax Sale list: S.W. 34-27-8 and S.W. 4-15-27.

The bill of \$61.20 for destruction of weeds on the N.W. 34-28-8 be charged against this land.

That the following trust monies now on hand be paid to the Dept. of Municipal Affairs and Hail Board.

Supp. Revenue account 1,160.67
Educational taxes 169.67

Hail taxes 4000.00

J. M. Davis be engaged as auctioneer for tax sale.

J. N. Key represent the Municipality at the tax sale.

That the request of Mrs. Holton Hall for Mother's Allowance be not granted.

That we pay the Village of Chinook \$43 being our share of the funeral expenses of the late Dr. L. W. Rosenkrans after deducting payment of \$17 made to his estate.

Local Items

Only nine more days to Christmas. Do your shopping early.

Rev. E. S. Bishop, of Edmonton, secretary of the department of Evangelism and Social Service, will address a public meeting in Chinook church to-night at 8 p.m. Everybody welcome.

Mr. Fred Lake, of Oyen, was a visitor in town on Tuesday. Mr. Lake has sold his butcher business at Oyen and expects to move to Ridgedale, Sask., in the near future.

Mr. Richard Stewart left Wednesday for Ottawa where he will spend a vacation.

One of the main features on the program at the Literary meeting next Friday evening will be the debate, "Resolved that in our economic conditions rather than in the heart of man lies the solution to the world's problems." The affirmative will be taken by Mr. Bird and the negative by Mr. Watson.

Mr. Wellington Yake, of Cappon, was in town this week visiting his brother, Mr. J. W. Yake.

Mr. D. McKenzie was a visitor in Calgary this week returning Wednesday morning.

Don't forget the Christmas tree and entertainment at the School on December 22nd.

We were sorry to learn that Miss Lola Youngren, who was attending school here, was taken to Cerebral hospital on Monday suffering from appendicitis.

Mr. L. S. Dawson left Sunday for Edmonton where he will attend the Municipal Convention.

Miss Gladys Switzer, who has been visiting with her sister, Mrs. Carpenter, of Ribstone, Alta., returned last week.

Two sleigh loads of young people went out to Mr. E. E. Noble's last Saturday evening where they were gayly entertained.

That we request the M. Ds. of Cerebral, Flowerdale and Berry Creek to join with us in petitioning the Dominion Government to complete the construction of the Acadia Valley branch of the C.N.R., in order to provide work for indigent settlers tributary thereto; and that we endeavor to have our petition endorsed by the Municipal Convention.

That we petition the Government of the Province of Alberta to continue the construction of the proposed telephone lines within the Municipal District thus providing work during the winter months for the needy residents.

That the official delegates to the Municipal Convention be paid \$25.00 in advance on account of their expenses.

A number of bills were passed and ordered paid as soon as funds were available.

The Council adjourned to meet again in the Collinwood School on Wednesday, Dec. 28, at 10 a.m.

The Way to Save

It is the systematic regularity with which you make small deposits, rather than the occasional banking of a considerable amount, that steadily builds up a substantial financial backing.

Get the habit of definitely depositing. Three dollars saved every week, with interest at 3% compounded semi-annually, in five years will amount to \$841.02.

Liberal Party Is Returned To Power By Large Majority

Ottawa.—After ten years in opposition, the Liberal party is again returned to power. In the new House, Hon. W. L. Mackenzie King will have a clear majority over all parties. Of the three parties the Progressives stand second and the Government party third. In the three provinces of Prince Edward Island, Nova Scotia and Quebec, the Liberals swept every seat. The new National Progressive party, by securing seats, will become a factor in Dominion politics. The Progressives did not secure the support that was expected in the east, but in the provinces of Alberta, Manitoba and Saskatchewan they made almost a clean sweep.

The Government has retained little more than a third of the seats it held at dissolution. The prime minister was defeated in his own constituency and with him were defeated eight members of his administration. The defeated cabinet ministers were:

Mr. Hon. Arthur Meighen, prime minister.

Hon. L. P. Niemand, president of the privy council.

Hon. Rodolphe Monty, secretary of state.

Hon. L. C. Boley, postmaster-general.

Hon. A. Fautoux, solicitor-general.

Hon. C. C. Bannerman, minister of marine and fisheries.

Hon. E. K. Spence, minister without portfolio.

Hon. James Wilson, minister without portfolio.

Two of the defeated ministers—the prime minister and Mr. Wilson—were beaten by Progressives. The others were beaten by Liberals.

One woman was elected, Miss MacPhail, the Progressive candidate in Southeast Grey Ontario. She will be the first woman to sit in the Canadian House of Commons.

Following is a summary of the returns by provinces:

	In	Lib.	Con.	Pro.	Ind.	Lab.	D.

Five Men Injured In Collision

Thought—Eastbound Freight Train Crew Misunderstood Signals

Kamloops, B.C.—Five men were injured when two Canadian National freight trains collided head on at a curve west of Hope. The two engine crews jumped to safety before the impact and were badly shaken up.

Engineer Lewis and Conductor E. Miller, Kamloops, were most seriously injured. Others hurt were Conductor H. S. Colquhoun, Fireman L. G. Miller and Engineer W. Delaney.

It is thought the eastbound freight crew overlooked signals carried by a passenger train indicating that another section was following and after the passenger passed by proceeded eastward against the westbound freight.

Communists Are Expelled

Police Claim Bela Kun's Adherents Were In Riot

Vienna.—Twelve communist leaders including at least six of the leaders of Bela Kun, the former Hungarian Communist leader, who had taken refuge here, have been ordered expelled as a result of rioting. The police claim to have established the connection of Bela Kun's adherents with the trouble.

Winipeg Judge Keeps Promise

Winipeg.—Magistrate Sir Hugh J. MacDonald made good his promise to suppress violent crime in Winipeg with the lash when he sentenced John Hilday to 20 lashes. Hilday and two companions staged a daylight robbery here, the victim of which was struck over the head with a piece of stove wood. The two companions also received a five-year sentence, but no lashes.

Fire Destroys B.C. Store

Revelstoke, B.C.—One of the warehouse houses here of Grand Smith and Company and McDonald, contractors, has been destroyed by fire. About \$12,000 worth of camp outfits and supplies were stored in the building.

Passed Anti-Dumping Bill

London.—The Australian House of Representatives has passed an anti-dumping bill under which the agricultural producer will be given special consideration, particularly in relation to losses through adverse weather.

THE NEW PREMIER

Hon. William Lyon Mackenzie King, Leader of the Dominion Liberal Party.

Crerar Issues Statement

Is Well Pleased With Showing Made By Progressive Party

Winipeg.—Expressing satisfaction with the party's first campaign in a general election Hon. T. A. Crerar, leader of the National Progressive party, made his first public statement since election day, in which he declared that the practically clean sweep by the Progressives in the prairie provinces, "expressed in a very clear and definite manner the opinion of Western Canada."

The following is the text of the statement as issued to the Canadian Press Limited:

"The practically clean sweep in the prairie provinces, and the very emphatic majorities received, express in a very clear and definite manner the opinion of Western Canada. It was our first campaign in a national sense, and while the returns from Eastern Canada did not come up to expectations, on the whole I am well satisfied with the result. It is a tribute to the wholehearted efforts of thousands of volunteer workers, without whom it would have been impossible. The Progressive cause stands for unity in Canada for the promotion and development of the spirit and sentiment of a sound, self-reliant Canadianism. The country has never before needs sound and progressive public policies that will develop our great latent wealth and to our population, and thereby solve our financial and railway problems. Our course in the new Parliament will be governed by those considerations."

This is the first large party to move, and the forerunner of others, for Mr. Emerson, who is directing the Mennonites to their new homes, admits that fully fifty more families are expected to leave before six weeks have elapsed.

Guardsmen On Duty At Packing Plant

Safeguarding Employees at St. Paul Opposed to Strike

St. Paul, Minn.—Minnesota National Guardsmen were encamped in the packing plants district of South St. Paul, prepared to carry out instructions of Governor Pease for safeguarding employees who wish to work, despite the strike of meat cutters and butchers. More than 600 Guardsmen were mobilized in the district, and it has been planned to lead strike pickets from the streets leading to the plants.

Starving Man Was Honest

Sheffield, Eng.—An unemployed laborer found three sacks filled with silverware and other articles stolen from the home of C. E. Siddall, steel works manager, although he was almost starving, the laborer took the stolen articles to the police station.

Jail For Doukhobors

Vancouver.—Magistrate Sault sentenced the three Doukhobors who were arrested for discarding their clothing at the Canadian Pacific Railway depot, to three months in Okalla prison.

Tokio Wants Health Centre

Americans Being Interested In Expanding St. Luke's International Hospital

New York.—Tokio wants a health centre like those of the large cities of the United States and Europe. In an effort to obtain it, Dr. R. E. Tessler, director of St. Luke's International Hospital at the Japanese capital, has just come to New York to interest Americans in a project to expand that institution as to equip it to perform the functions of a health centre. At present Tokyo has no institution that would correspond to the health centres of other nations.

Immigration Quotas Exhausted

New York.—It is announced at Ellis Island that the immigration quota of the following countries for the year had been exhausted. Greece, Spain, Albania, Asiatic Turkey, Yugoslavia, Palestine, Portugal, New Zealand, Syria-Smyrna and the districts listed as "other Europe" and "other Asia."

Evacuate Cilicia

Paris.—The foreign office announced the evacuation of Cilicia. It was said that a few troops remain there as protection for the Franco-Turkish commissions which have taken over the management of affairs in the evacuated cities.

Disturbers Disappear From Calcutta

Calcutta.—The Non-co-operationists and the Khaliphah volunteers in Calcutta have virtually disappeared as a result of recent police measures taken against them. The Non-co-operationists, however, are paying house-to-house visits, ostensibly to call home-spun cloth, but it is alleged these visits are being used as a cover for preaching a "hartal" for Dec. 24, when the Prince of Wales is due to arrive here.

U.S. View On

Dominion Elections

Opinions Varied on Possible Tariff Actions of New Canadian Government

Washington.—There is much speculation among members of Congress as to the possible effect of the elections on tariff relations between the United States and Canada. A special interest is being taken in the situation by members of the House ways and means committee which has jurisdiction over tariff matters. Despite the fact that Premier Meighen, who openly advocated a high tariff for Canada, has been defeated, some authorities in Congress express the view it would be difficult to revise reciprocity or bring about mutually low tariffs.

Representative W. R. Green, of the House ways and means committee, said the real difficulty would be to find a place to start. He said with United States' farmers and manufacturers both insisting on high tariffs, he did not see how reciprocity could be revived.

Others take the view that if the "Harding administration" is given the broad powers it seeks in handling tariffs, the new Government of Canada will be able to achieve much in heading off tariff barriers by negotiating with the President.

China Orders Goods From German Firms

Process of Recovering Business Connections Will Be Slow

London.—The Germans are gradually retreating to China and picking up the threads of their former business; not trading for the present under their own names, but in partnership with Chinese, says a report on the commercial situation of China by H. H. Fox, commercial councillor of the British legation in Peking.

German eyes and paints, needles, metals, drugs and sundries are beginning to appear on the Shanghai market, the report goes on, and it is stated that several important orders for machinery and electric plants have recently been booked by German firms.

There is no doubt, the report says, that the Germans assisted by their comparative cheapness of their products, will gradually recover the share they held in China's foreign trade before the war, but the process will be slow, as they have lost valuable connections, the business organizations they had laboriously built up have been shattered, and they have suffered a serious loss of prestige in the eyes of the Chinese.

Spotters In Ontario

Toronto.—General Elliott, provincial commissioner of police, announces that, in enforcing the Ontario Temperance Act, he would try to make use as little as possible of "spotters" and that, in cases where it was absolutely necessary to get evidence this way, district officers were being advised that they would be held strictly responsible for the type of men employed in enforcing this act.

By making your purchases from your home merchant you are contributing direct to the prosperity of the community in which you live.

Lord Londonderry On Irish Agreement

London.—Lord Londonderry, the leader in the Ulster senate, is quoted in a despatch to the Daily Mirror from Belfast, as saying, regarding the Irish agreement:

"This is a settlement. There will, of course, have to be adjustments, but for good or ill, a settlement will now come on the line of the present proposals. One may hope for the best without being excessively optimistic."

Bandits Captured In Vera Cruz

Mexico.—Mexican Government forces have gained the upper hand over the bandits who have been terrorizing the inhabitants of the territory of Santa Cruz. Colonel Varela reports the capture of about 500 of the outlaws, together with 3,000 horses and quantities of arms and ammunition, and the recovery of booty valued at 70,000 pesos.

National Progressive Leader

Hon. T. A. Crerar, Leader of the National Progressives, whose forces made almost a clean sweep in the Prairie Provinces.

To Confer Over Reparations

French Minister and Experts Will See British Chancellor

Paris.—Accompanied by several French financial experts, Louis Loucheur, minister of liberated areas, left Paris for London, where he will confer with Sir Robert S. Horne, chancellor of the exchequer, with regard to the reparation payment due by Germany in January and February.

It is understood the British Government desires to explain the purpose of all the negotiations which recently have been going on in London with Dr. Walter Rathenau, former German minister of reconstruction, and other Germans, and also to discuss with Mr. Loucheur a general outline of the reparations policy which the British financial experts believe to be necessary.

Among those who are accompanying Mr. Loucheur is Pierre Cheysson, financial adviser to the French Government.

Against Secret Treaties

Washington Conference Adopts Resolution Regarding Treaties Affecting China

Washington.—Striking at the heart of secret treaties affecting China, the Washington conference adopted a compromise resolution providing that no treaties or other forms of understandings should be entered into by the powers between themselves which would impair the Root resolutions already adopted by the conference.

The resolution is in effect a modification of China's proposal in point number three of the ten points presented at the beginning of the conference under which no treaty or agreement would be entered into by the powers "directly affecting China, or the general peace in these regions" without previously notifying China and giving her an opportunity to participate.

U.S. Will Increase Prohibition Force

Congress Asked to Vote Additional Ten Million Dollars

Washington.—Seven hundred and fifty additional dry agents are to be added to the prohibition forces, if Congress allows the estimate of \$10,000,000 deemed necessary for prohibition enforcement during the fiscal year 1923.

These agents would be concentrated in mobile forces to go into several of the largest cities in the country for clean-up drives. From these cities the forces will be shifted to border points and to sea coast cities for drives against widespread successful booze smuggling.

British Forming Plans For Launching Of Irish Free State

Important Enactments Forecast in Speech From the Throne

London.—With the tension and anxiety of the past week giving place to general rejoicing, preparations are being made for the necessary formalities for bringing the new Irish Free State into being.

Nowhere is there any real idea that anything can now happen to prevent its birth, although difficult details may have to be encountered.

Downing Street was inundated with telegrams of congratulation from all over the world. The Premier presented to Lady Greenwood, the wife of Sir Hamar Greenwood, chief secretary for Ireland, the pen with which he signed the Irish treaty as "an appreciation of your husband's efforts for peace." It is recalled that the Prime Minister's first speech of importance in his political career was delivered in the company of Michael Davitt at a political meeting in Wales in the eighties, and it was in favor of home rule.

One of the first fruits of the peace—probably arranged for at the conference when the treaty was drafted—was the Royal proclamation releasing more than 3,000 prisoners interned in Ireland. It is reported also that there may be reconsideration of the sentences imposed on those Irishmen convicted of political crimes.

China Orders Goods From German Firms

Process of Recovering Business Connections Will Be Slow

Bandits Captured In Vera Cruz

Mexico.—Mexican Government forces have gained the upper hand over the bandits who have been terrorizing the inhabitants of the territory of Santa Cruz. Colonel Varela reports the capture of about 500 of the outlaws, together with 3,000 horses and quantities of arms and ammunition, and the recovery of booty valued at 70,000 pesos.

National Progressive Leader

Hon. T. A. Crerar, Leader of the National Progressives, whose forces made almost a clean sweep in the Prairie Provinces.

To Confer Over Reparations

French Minister and Experts Will See British Chancellor

Paris.—Accompanied by several French financial experts, Louis Loucheur, minister of liberated areas, left Paris for London, where he will confer with Sir Robert S. Horne, chancellor of the exchequer, with regard to the reparation payment due by Germany in January and February.

It is understood the British Government desires to explain the purpose of all the negotiations which recently have been going on in London with Dr. Walter Rathenau, former German minister of reconstruction, and other Germans, and also to discuss with Mr. Loucheur a general outline of the reparations policy which the British financial experts believe to be necessary.

Among those who are accompanying Mr. Loucheur is Pierre Cheysson, financial adviser to the French Government.

Mortgage Sale of Valuable Farm Property

Pursuant to the directions of the
Registrar and by virtue of the Powers
of Sale provided by "The Land Titles
Act", under a certain mortgage which
will be produced at the time of sale
there will be offered for sale, by public
auction at the Post Office in the
Village of Chinook in the Province
of Alberta, on SATURDAY, the 7th
day of January 1922, and at the hour
of Two o'clock in the afternoon, the
following property, namely:—

The South Half of Section Sixteen
(16) in Township Twenty-eight (28)
and Range Seven (7) West of the
Fourth Meridian in the Province of
Alberta, reserving unto His Majesty
all mines and minerals.

Terms of sale to be 20 per cent.
cash 7th time of the sale and the bal-
ance according to the terms and
conditions to be made known at the
time of sale or upon application to
vendor's solicitors.

The above property will be offered
for sale subject to a sealed reserve
bid and free from all encumbrances,
save taxes for the current year.

The vendor is informed that the
above property is situated about four
miles South from the Village of
Chinook on the C.N.R. and that in-
cludes a shingle roofed frame resi-
dence 14 feet by 16 feet, with lean-to
12 feet by 14 feet, and kitchen 10 feet
by 12 feet, a frame stable 16 feet by
32 feet and two granaries 14 feet by
16 feet and 12 feet by 14 feet and con-
siderable fencing and a well and that
about 180 acres have been brought
under cultivation of which about 150
acres are in stubble and about 27
acres summerfallowed.

For further particulars and condi-
tions of sale, apply to L. E. Ormond
Solicitor, Chinook, Alberta.

Dated at Calgary in the Province
of Alberta, this 24th day of October
A.D. 1921.

W. Forbes,
Registrar.

THE LAND TITLES ACT MORTGAGE SALE OF VALUABLE FARM PROPERTY

PURSUANT to the directions of
the Registrar and by virtue of the
Powers of Sale provided by "The Land
Titles Act", under a certain mortgage
which will be produced at the time
of sale, there will be offered for
sale by Public Auction at the Acadia
Hotel, in the Village of Chinook, in
the Province of Alberta, on Saturday,
the 7th day of January, 1922, at the
hour of Two o'clock in the afternoon,
the following property, namely:

The East Half of Section Ten (10)
in Township Twenty-six (26) and
Range Eight (8) West of the Fourth
Meridian in Alberta, reserving unto
His Majesty, his successors and as-
signs, all mines and minerals and the
right to work the same.

Terms of sale to be 20 per cent. cash
at the time of the sale and the bal-
ance according to the terms and con-
ditions to be made known at the time
of sale or upon application to the ven-
dor's solicitors.

The above property will be offered
for sale subject to a sealed reserve
bid and free from all encumbrances
save taxes for the current year.

The vendor is informed that the
above property is situated about 15
miles South West from the Village of
Chinook on the C.N.R. and includes
a shingle roofed dwelling house 18
feet by 34 feet, with two additions 8
feet by 8 feet, and 6 feet by 6 feet, a
granary 20 feet by 40 feet, a stable 40
feet by 40 feet, and a work shop and
hen house 16 feet by 28 feet, all of
frame construction, a well with a
windmill and reservoir and about 180
acres of land, and that about 150
acres have been brought under culti-
vation, of which about 140 acres are
in stubble and none in crop this year.

For further particulars and condi-
tions of sale, apply to L. E. Ormond,
Solicitor, Chinook, Alberta.

Dated at Calgary, in the Province of
Alberta, this 15th day of October,
A.D. 1921.

W. Forbes,
Registrar.

have appointed Sir Benjamin
Robertson, the famous Indian
famine expert, as an Empire
Commissioner in Russia to super-
vise the distribution of all relief
sent to that unfortunate country
by the British Empire.

Chinook Advance

Published at Chinook, Alberta
every ThursdayRobert Smith,
Editor and Publisher.

THURSDAY, DEC. 25, 1921

In summing up Mr. Bird's let-
ter in our last week's issue of the
Advance we have come to the
conclusion that he believes that
under socialism the troubles in
this world would cease, and that
the question of the heart does
not come into consideration at all.

While socialism does not pro-
fess to interest itself with a future
world, and is only interested in
correcting this world's troubles
and at the same time accepts the
practical teachings of Christ, yet
there is still a wide gap between
it and Christ's teachings. Social
ism may have the mechanical part
of Christ's teachings, but it has
not the dynamic power of Christ
behind it. This is where the
great gap lies, that it provides all
for virtue, except the life to live
it. Christ is the only One who
can give a motive power to beget
in us virtues we admire. Social-
ism itself alone lacks creative
power. Its system has no rad-
iating light, no virtue making
power.

Mrs. L. M. Taft To Speak at Collingwood

Mrs. L. M. Taft, lady superin-
tendant of Beulah Rescue Home,
Edmonton, will lecture at Coll-
ingwood church on Sunday, Dec. 18
at 2 p.m. The work which Mrs.
Taft represents is undenomina-
tional and is the only work of its
kind in Alberta and therefore will
appeal to all. This most ardent
yet most noble and worthy cause
deserves the heartiest support and
deepest sympathy. Mrs. Taft has
her heart in the work and her
message comes from a heart burn-
ing with love for those among
whom she labors and who she is
seeking to help. Come and here
her.

The Bluebird Club

Here we've met a jolly group
Bluebird Club of Chinook. Happi-
ness in home and land shall be
the motto of our band.

The Bluebird Club is just what
the above tells us. We held our
first meeting recently at the par-
sonage, and the following officers
were elected: President, Mrs.
Ketty's; Vice-President, Miss
Kiest; Sec.-Treas., Miss Stella
Vaughan; Assistant Sec.-Treas.,
Miss Dorothy Smith. It was de-
cided to hold the club meetings
every Tuesday evening from 7.30
to 9. The Secretary has just re-
ceived the kind permission of the
School Board to meet in the
school.

The members are all very en-
thusiastic about the club and are
as busy as bees. The member-
ship now numbers twenty one and
each is the proud possessor of a
Bluebird-pin the emblem of the
club.

They are getting up a little
play to put on at the Xmas en-
tertainment in which they hope to
bring out their spirit of shedding
happiness to others not so happy.

So let us all wish success to
the Bluebirds.

The Official Board of the Chin-
ook Church is called to meet at
7.30 p.m. sharp Friday, Dec. 16
in the church. All members are
urged to be present.

Kazubazua--The Happy Hunting Ground

(Kazubazua. What is it? Where
is it? Does it exist outside the
comic papers? Thus the ignorant
and untravelled.

Many Canadians know that
Kazubazua is situated in one of the
most beautiful sections of the Gatineau
district, that the word, far-
from being one with humorous in-
tent, is of Indian origin, meaning
"hidden river," which is descrip-
tively accurate of the Gatineau at this
point. Very few, it is to be feared,

It takes the sportsman to prick
up his ears at the mention of the
name. For he will probably know
that near Kazubazua lies one of the
finest trout streams in the province,
and that it forms the base of many
famous hunting expeditions.

Notable among these were the
two trips which have given the Gatineau
a staunch friend in Rex Beach,
who claims to have hunted over
thousands of miles of country with-
out finding anything that could
touch the Kazubazua region.

To Conn Teeple, a resident of
Kazubazua and the most renowned
of Gatineau guides, a measure of
Mr. Beach's enjoyment and success
is certainly due.

Teeple, a spare, wiry man, who
does not look his age—whatever it
is!—has "called" moose for many a
hunter, but save for bears, whose
skins adorn his home, he does not
skate "for killing."

"It's an awful dear man," said a
neighbor of his one day, and when
pressed to give a reason for Mr.
Teeple's expressiveness, he ex-
plained:

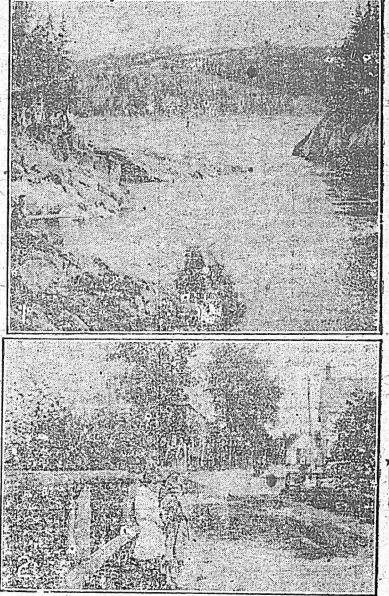

"He can spot a deer miles away.
Seems almost as if he could feel
them in the air. Where nobody else
can bring in game, Conn Teeple can.
He knows by looking at a hill whether
there's deer on it. Yeh, he's an
awful dear man, he is!"

Mr. Teeple's tastes are frankly
rural. He looks with keen disfavor
upon metropolitan inventions, es-
pecially the motor car. Walking to
him is the natural method of loco-
motion, though the advantages of a
"motor" are not lost upon him. He
walks 25 miles a day with true en-
joyment, but one evening after
motoring sixteen miles, he returned
to his home exhausted. "Tuckered
right out," he complained. "It's a
crock strain on a fella, you know
just what I mean."

The station at Kazubazua holds its
own haughtily aloof from the town.
Conspicuous of every description
the motor cars and the motor
buses of a sort of sandy table-land,
profusely covered with blueberries
in summer, to the cluster of cottages
that form the village. This blueberry
patch is about 9 miles in area and
its output would practically feed
Montreal.

Kazubazua presents a very differ-
ent appearance to Low for ex-
ample. The hills seem farther away
and the country is wilder, in spite of
a relatively larger settlement. Deer
are seen here by bears are not un-
known, moose drink at the "creek"
and yet telephone bells whirr in
almost every home and three hours
travel will take one to the Capital
of the Dominion.

There is a house at Kazubazua
its functions are not confined to

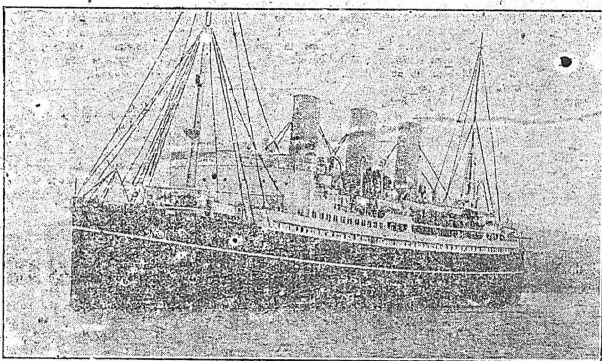

(1) A typical view of the Gatineau River and Hills.
(2) Kazubazua has a main street.

There is a main street in Kaza-
bazua a carling mill, a convent plant
and a flour mill. Outside the latter
stand the old guiding stones that
were used in past years, and on the
main road there is an earthen oven,
upon which one might look as the
grandmother of our Community Kitch-
ens. It has been extensively used
within recent times.

Kazubazua will not attract the
commonplace, the two of vacan-
tist to whom six wardrobe trunks
and ten hatboxes are a necessity.
There isn't a moving picture palace
in the place, nor a Chinese res-
taurant, nor an apartment house!
There are two stores, however.
And gold has been found in the dis-
trict. This is true because at one
of the stores there are postcards for
sale showing a robust looking gen-
tleman leaning on a pickaxe and
shadowed by a huge mound, which
is supposed to represent pay dirt.
It is a little thing, but which rep-
resents a large sum of money. In-
vestors regard merely as a futile
attempt to alter the position of the
Gatineau hills.

There is a house at Kazubazua
its functions are not confined to

A Great Pacific Liner

The new C. P. R. liner, the
Empress of Canada is built
exclusively for the Pacific service.
The appointments will be the finest
and most luxurious possible to-day.
A party lar regard to the C. P.
standard of Safety, Speed, Com-
fort.

She has an overall length of 653
feet, 11 inches in breadth
and 53 1/2 feet in depth to the bridge
deck; she has a straight stem and
three funnels and one of the
greatest masts. There is a continuous
water deck with bridge, promenade
and hot decks over the former ex-
tending for the full length of the
ship; two complete between decks
and lower and orlop between decks.
The Empress of Canada has a gross ton-
nage of 22,000 tons, and is arranged
to carry about 400 first class, 100
second class, 238 third class and 932
passenger passengers, and crew of 547.
Of the cargo spaces there are several
large portions have been fitted for
the carriage of silk and refrigerated
cargo. Her speed is about 21 knots.
She is built to the highest class of
Lloyd's Register and Lloyd's Trade
requirements.

The first class accommodation is
arranged on the shelter deck and in
addition to the single, double and
family staterooms there are several
special rooms and private suites,
which comprise bedrooms, sitting
rooms and bathrooms. The staterooms
are fitted with the very latest
type of open washbasin, with a sup-
ply of hot and cold water. The pub-
lic lavatories and bath rooms have
the most modern improvements in
sanitary equipment. A complete sys-
tem of telephones is connected with
a central exchange to the rooms and
offices.

The dining saloon is on the upper
deck and will accommodate 325 per-
sons. A large recreation room is situ-
ated forward of the dining saloon;
the passenger elevator is at the fore
and aft. On the upper deck is also
a large swimming pool, 30 ft. by
18 ft., with adjoining gymnasium and
dressing rooms similar to the best
clubs. The other public rooms are
arranged on the promenade deck
with special view to convenience and
comfort. There is a large lounge with
ample room for concerts and
moving picture performances, with
a large moving picture room oper-
ating on the upper deck. There is a
special room for children.
Drawing Room, Writing Room,
Smoke Room and Verandah Cafe
and all are luxurious and attractive
in every way. Long promenades and
recreation spaces for games, dancing
and sports are reserved for the use
of passengers.

The second class accommodation is
situated on the shelter deck aft, ar-
ranged in two and four berth rooms.
These staterooms are fitted similar
to the first class. The Dining Saloon
is on the upper deck and will accom-
modate 100 persons. The Lounge is
on the bridge deck aft.

In addition to a large laundry, dis-
pensary, hospital, dark room for
camera enthusiasts, etc., there are
innovations in the steerage, food,
kitchen and pantry service. A per-
fect system of mechanical ventila-
tion is installed and all the supply
and exhaust fans are capable of
changing the air throughout the ship
at such frequency as to assure prac-
tically pure air at all times. All
thermostats and supply fans have
in approved disinfecting apparatus.
Electric radiators are fitted in the
first and second class state rooms.
The cargo equipment is of the
most modern type as well, the judi-
ciously placed derricks being operated by
powerful electric winches. The steam
warping machinery are also im-
provements on any now in use.

Throughout the ship particular at-
tention has been devoted to the fact
that the "Empress of Canada" is for
Trans-Pacific and semi-tropical ser-
vice, therefore the ship is fitted with
cool and airy and specially designed.
The "Empress of Canada" has
been preceded by two other oil
burners, the "Empress of Britain,"
now in service, and the "Montcalm,"
which was launched last year, and
will set a new pace in comfortable
passenger steamships for ocean
service. Two others of the popular
"McKean" type are also in con-
struction. The oil fuel bunkers of the
"Empress of Canada" have a
normal capacity of 4,500 tons of oil.

British Cattle Embargo Simply A Protection Of Interests Involved

The report of the Royal Commission on the Importation of Store Cattle into Great Britain, has now been made public, and a synopsis will be of interest to many of our readers. An outstanding fact is the declaration that this country's cattle are free from any form of contagious disease that would necessitate their exclusion. The question resolves itself then into one purely and simply of protection to the British interests involved. The conclusions reached, given at the end of the report are: That the admission of Canadian cattle for the purposes other than immediate slaughter, would tend to increase the meat supply of the United Kingdom; that such admission would tend to cheapen the meat supply of the country; that the importation of Canadian stores would tend to satisfy in some measure the increasing demand for fresh homebred meat; that there is no substantial reason for believing that such admission would introduce disease among British cattle; that such admission would promote the restoration in the number of livestock lost during the war; that the introduction of Canadian cattle would advance the milk supply of Great Britain; that the cost of transportation furnishes a certain measure of protection to the breeding interests of Britain; that the crofters and small farmers in the Highlands might, in some degree suffer from competition, and that the Irish farmers might experience some difficulty in their market. Although the term livestock covers also sheep and swine, the commission thought that the admission of cattle was practically the sole subject of inquiry. This question, however, did arise regarding the admission of sheep, of which Ireland, it was said, could supply 50,000 annually. It was also stated that the importation of sheep into Ireland was entirely prohibited. The estimate of the number of cattle that Canada could supply yearly was upwards of 200,000.

Progress of Civilization

High Powered Car May Not Be An Indication
Somebody has recalled that twenty years ago, the first motor car appeared in Toronto. It looked like an ordinary buggy with a one cylinder gas engine hung underneath. It was capable of a speed of eighteen miles an hour under favorable conditions. A comparison of the horseless buggy of twenty years ago with the luxurious high-power car of today helps to an understanding of what we mean by modern progress. It can measure the development of the race in civilization by the development of machinery we ought to be making wonderful progress; but somehow we feel that this cannot be done. Today it seems more than doubtful that the race has made such progress in civilization during the past twenty years. Sometimes it seems that much of our boasted progress is like that of the crab, which thinks, no doubt, it is making wonderful advance, when all the time it is going backward.

Perhaps the situation is better than it seems; let us hope so; but to the pedestrian who feels that he takes his life in his hands every time he crosses a busy street, it may seem that the horseless buggy of twenty years ago, with its speed limit of eighteen miles an hour, was more of a useful servant and less of a public nuisance than the modern "scorcher." From the Woodstock Sentinel-Review.

Arctic Expedition Ahead Of Time

Crew Confident That Voyage Will Be A Success
The schooner Dowdall, with the Arctic expedition headed by Donald B. MacMillan had entered Hudson Bay on August 1, several days ahead of its schedule, and it was hoped to pass through the dangerous Fury Hecla Straits on the west coast of Baffinland in ten days. The letter was dated "On Board the Dowdall, Aug. 1, Lat. 64 degrees north, Longitude 76 degrees 30 minutes west."
This was the last chance to send mail, the explorer said. He wrote that unless the people at home heard from the expedition again by April or May it would indicate they had not been able to pass through the strait and had been forced to pass the winter further down the coast. MacMillan reported himself and crew of six well and happy and confident of accomplishing the work mapped out for them.

The recent census figures show that seven out of every ten cottagers in the British Isles are women.

Germans Alarmed Over Wine Export

Foreigners Have Bought Almost Entire Output Of 1921
Hundreds of foreigners chiefly Frenchmen, Belgians and Hollanders, taking advantage of the present low value of the German mark, have almost bought the entire German wine output of 1921.

The ruthless raids by foreign buyers, whom no fancy prices seem to deter, are a source of bitter lamentation on the part of domestic consumers, who foresee that but little of the precious liquor will be left for their own enjoyment.

German officials have been seeking means to prevent Germans from being deprived of this year's excellent wine, and from having to purchase inferior vintages of other years at higher prices. As a last effort to retain the remains of the 1921 crop, an attempt has been started to force foreigners to pay a higher price for the wine than the Germans.

The Prussian minister of commerce is taking steps to enforce the law prohibiting exports, which covers necessities of life as well as wine sold in small lots.

Remarkable Potato Yield

Marcelin Farmer's Record Higher Than Government Experimental Stations

Eight hundred and fifty-eight bushels of potatoes to the acre is the yield this year from a plot owned by E. Kuntze, Marcelin, Saskatchewan. While this yield may not be a record in itself, yet it is higher than any of the Government Experimental Stations. It is more remarkable owing to the fact that this particular plot of land has been planted continuously to potatoes for the last four years, each year showing a higher yield than the previous one. The following are Mr. Kuntze's records from 1918 to date: 1918—No record kept. 1919—425 bushels. 1920—640 bushels. 1921—858 bushels.

In view of this it is quite possible that the yield may yet be higher still, in fact the owner is figuring on harvesting one thousand bushels to the acre in 1922.

Profits In Co-Operation

Saskatchewan Co-Operative Elevator Company Report Good Year

The annual meeting of the Saskatchewan Co-Operative Elevator Company has been held, and announcement is made that the profits of the company amounted to \$279,413. It was also announced that the Commission Department of the company had handled during the present year 27,125,418 bushels of grain.

How Famous Waltz Was Written

The famous "Blue Danube" waltz came to Johann Strauss one day while he was strolling in the park with his wife, and having not a scrap of paper at hand, he wrote it on the white linen collar worn by Frau Strauss, as his own linen was limp colored.

Direction Finder Saves Ship

Captain of Lord Antrim Received Bearings By Wireless

Had it not been for the direction finder of wireless telegraphy, the SS. Lord Antrim, which docked at Montreal after one of the roughest voyages she has ever made, would have been dashed to pieces on the Virgin Rocks, situated off the banks of Newfoundland.

Captain Jarvis, commander of the big freighter, explained that while the vessel was off this treacherous coast, a terrific gale had been encountered, the severity of which made it imperative to leave to completely at a loss as to his whereabouts, he communicated with various wireless stations. They immediately sent him his bearings and with this data to work on, he made the startling discovery that his ship was drifting in the dark straight for the Virgin Rocks at a speed of nearly eight knots an hour.

Speckled Trout In Northern Rivers

Fish Are Identical With Those Caught In Nipigon

The speckled trout streams of Northern Ontario, invaded recently by sportsmen from all over the continent, may have a rival in Northern Manitoba. Genuine speckled trout, identical with those found in the Nipigon River, have been caught in the Kettle Rapids on the Nelson River. With all the skeptics satisfied, there is talk of stocking some of the lakes, such as Clearwater, with the spawn of these fish as an inducement to sportsmen, and many advocates of this plan believe a few more years may see fishermen from all over the world streaming into the north country after the speckled trout.

It has often been claimed that there were no speckled trout north of the great divide in the waters emptying into Hudson's Bay, but all doubts have been set aside by a local resident, formerly engaged in the fish hatchery business, who has caught trout at Kettle and declares them to be the same as those found in Ontario waters. The fish are said to be of a good size and very plentiful.

His Title Clear

A Pennsylvania lawyer was once arguing a case on behalf of a Hungarian and had displayed great knowledge of Hungary and its people.

"Come, come," said the judge at last, "you know you cannot make yourself out to be a Hungarian."
"Perhaps not," said the lawyer, "but I have made a great deal of money out of Hungarians in my time."
"In that case," suggested the judge, "suppose we call you a Hungarian by extraction."

Honest Paris

A black catfish containing \$55,000 in cash was found on the seat of a Paris omnibus one morning recently, writes a correspondent. It had been forgotten by a bank messenger, who was greatly relieved to find that the conductor of the omnibus had duly delivered it to the lost property office. "Where it lay among umbrellas and old gloves awaiting reclamation."

Better Methods Needed For Improving Grade Of Western Wool

War Mascot Dead

Cat Attached Himself To French Soldiers At Amiens

The French press pays tribute to a hero of the war, whose death has just been announced. The hero in question was named Diamond, and was a cat that attached himself to the French in the lines before Amiens. Every day Diamond might be seen threading its way through the entanglements to the German front trench. The Poles were afraid that some harm might come to their mascot, and in order to protect it they tied a jacket of cigarettes around its neck before it started out on its daily ramble, bearing the words: "I bring you cigarettes; do not kill me." Diamond, being a war veteran, had a right to a comfortable home when the armistice was signed, and was sent to an animal home superintended by the Comtesse Turkevich at Neuilly, where it died.

Breaking Up Stone Walls of Samoa

Reminder of Days When Cannibals Lived On Island

Many miles of ancient stone walls, which bear witness to ancient Samoan savagery, are now being broken up and used as road metal.

These walls form great enclosures, and must have been built with prodigious labor. They probably date back 500 or 700 years, and are grim reminders of the days when Samoa was a cannibal island.

Cannibalism came to an end in Samoa about 150 years ago, but before that time these enclosures were used by the Samoans for imprisoning victims captured from neighboring islands.

Trapping Season Will Be Good

Muskateers Have Increased In Northern Saskatchewan Since War

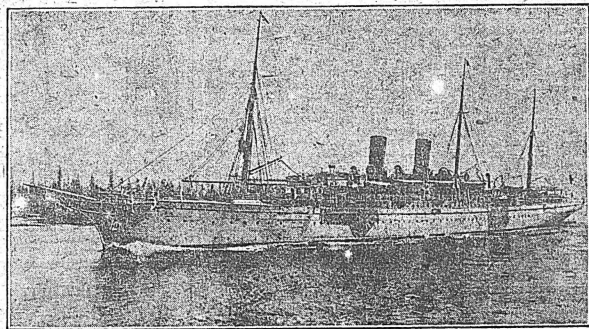

Judging by reports received by the chief game guardian, the trappers will have a splendid season in Northern Saskatchewan. More licenses than last year have been secured and indications point to the fact that muskrats, heavily depleted during the war and the years of high prices, have again increased considerably in numbers in the northern part of the province. Foxes, too, will provide good trapping, but the catch of beaver is likely to be small.

U.S. Lines Controlled By Canada

W. L. Clark, of the Pacific Steamship Company, at a meeting of the United States Shipping Board, made the assertion that thirty-eight United States railroad lines were controlled or influenced by Canada.

Spend your money at home, thereby helping your own town and local merchants.

A Grand Old Sea Empress

When the Empress of Japan sailed from Vancouver for Yokohama, Kobe, Nagasaki, Shanghai and Hong Kong a short time ago, she started on her one hundred and fifty-fifth voyage. A voyage in steamship parlance is a round trip, or, in other words, until the ship returns to her home port again. The distance from Vancouver to Hong Kong is 7,291 miles, or a total of 14,582 miles to be covered on each voyage. When the Empress of Japan arrived at the port of Vancouver, she established a record for Trans-Pacific voyages. With the completion of her one hundred and fifty-fourth voyage, the Empress of Japan had covered 2,500,000 miles in the Canadian Pacific service, or equal to nearly one hundred times around the globe. In computing this record, there is not taken into her account her four years' war service.

The Empress of Japan was built at the yards of the Naval Construction and Armaments Company at Barrow-on-Furness, and arrived at Vancouver in 1931. She is a steel-twelve screw steamship, three masts two funnels, 6,000 tons, is 455 ft. in length, 51.2 ft. in breadth, and 32.1 ft. in depth. 100 A/C according to Lloyd's Register, and is noted for her trim yacht-like appearance. She has enjoyed great popularity during her entire career, and is the smaller class of steamships on either the Atlantic or Pacific.

For thirty years the Empress of Japan has been in constant service without a single mishap to mar her record. Although in her day she was considered the finest of her type afloat, and for two decades was "Queen of the Pacific," she relinquished that honor only when the

speedier and larger Empress of Russia and Empress of Asia were added to the Canadian Pacific fleet between Vancouver and the Orient.

It is a tribute to the builders of the early days when it is known over that the ship's original boilers are still in her hull and doing good service. In fact, the Empress of Japan still maintains a speed of 16½ knots an hour, and on October 8 she made 287 miles in the twenty-four hour period. The Empress of Japan accomplished this last trip from Yokohama to Vancouver in a little less than 12 days, allowing for the meridian day. Some of the crack American liners which have recently entered the Pacific service are considered to have excelled themselves when they cover the distance in from 14 to 15 days.

The wool from the farms of the provinces of Manitoba and Saskatchewan was sold through the woolgrowers' co-operative organization and graded by Dominion Government graders has graded lower, been harder to sell, and as a result fetched lower prices than that from other provinces. Not only is this true when the wool is compared with the range wool, where different breeding and conditions would justify the difference, but it is also true when these wools are compared with the domestic wools of Eastern Canada, where the flocks are of similar breeding and are fed under farm conditions. There is no inherent advantage in the climatic or other conditions of these provinces to justify this inferiority. It is due wholly to poor methods in the breeding, feeding and handling of the farm flocks. A few years ago the butter from these provinces had an equally bad reputation, now it takes its place with the very best. That change was brought about by intelligent improvement in the dairy end of farming and butter-making. A similar improvement could be made in the quality of our wool.

The faults in the wool which reduce the grade are chiefly two, viz., "burry and seedy" and "dark." "Burry and seedy" is a trade term which covers more than burrs and seeds. Any kind of vegetable matter in the wool will put it into this grade. Chaff is probably the principal offender in western wool, and is very objectionable. It is impossible to get it all cleaned out by any known process. Most of it is removed but the operation is expensive. Some particles remain and get into the cloth. They will not take the dye and make an unsightly blotchy in the cloth. Consequently wool buyers fight shy of "burry and seedy." Last year (1920) twenty per cent. of the Manitoba and Saskatchewan domestic wool graded "burry and seedy," which was our principal grade, was twenty cents "burry and seedy" of the same quality brought in from three-quarter cents. Consequently the loss on this grade was very serious.

A conference of representatives of departments of agriculture and interested organizations was held in Regina on August 4. The following recommendations were made by that conference:

- (1) To eliminate "burry and seedy" wool—
 - (a) Never allow sheep to run or feed around straw stacks.
 - (b) Use proper feeding racks tightly boarded to within six or seven inches of the ground so as to prevent chaff getting into the neck and head wool.
 - (c) Use of shanking racks recommended on account of larger capacity and allowing of easier filling, feeding openings to be six or seven inches vertically and about three inches wide.
 - (d) If sheep are fed on the ground, never throw feed over their backs. Keep sheep out of the yard while feed is being placed on the ground, providing separate yard in which to confine them while this is being done.
 - (e) In selecting breeding animals, greater care should be exercised, special efforts being made to get rams and ewes having dense, compact fleeces which will shed chaff and other refuse. This does not necessarily involve cross-breeding but may be practised within the breed now used.
 - (f) If only the neck and shoulder of a fleece contain quantities of chaff or straw this portion of the fleece should be removed at shearing time and tied and sacked separately. This procedure, however, is not advised where the whole fleece is affected, but is desirable where the removal of a small portion would raise the balance of the fleeces into the straight grades.

His Letter of Recommendation
Bridget left Ireland with an excellent letter of recommendation from her last mistress, but on the way over the letter fell into the sea and was lost. Not knowing how to find work without her recommendation she applied to the nearest police station and gave her the following:

To the General Public—Bridget Flaherty had a good reputation when she left Ireland, but lost it on the way over.

To Vindicate the Law
Reuter's Delhi correspondent cables that Lord Reading Viceroy and Governor-General of India, replying to a common denunciation which waited upon him, said that recent events had rendered imperative the exercise of the Government's full strength for the purpose of vindicating the law and preserving order. He promised the fullest protection to all law-abiding citizens.

Attached to the Salvation Army in London is a deaf and dumb corps.

World Happenings Briefly Told

The German currency output during the last week in November increased 4,750,000,000 marks.

Emil Nemat, a settler near Rowan, brought into Port Arthur the first pet of a brush wolf for this fall. He received the \$20 bounty.

Andrew Macdonald & Son, of Chatham, Ont., received the only award given to Canadian corn at the big fair held in Chicago.

An inquest into the death of an aged widow at Sherbrooke, Eng., revealed the fact that her skull was three-fourths of an inch thick.

The national diet has passed a law imposing a tax of eight per cent. on interest from investments by foreigners in Finland.

Fulda, Japanese lumber king, will marry Miss N. Ohi, Chinese slave girl. He rescued her from a band of wandering minstrels.

It is reported that 100 persons lost their lives as the result of the explosion of an oil tank in the Nobel Dynamite Works at Saarbrücken, Rheinland, Prussia.

Loud horns on Paris taxi-cabs have been declared illegal and proceedings are being taken against their users. That's part of the campaign to reduce Paris noises.

Leut. Col. W. G. Mansell, of the Royal Engineers, was found to be working as a mail sorter in the London post office. He has been promoted to be postmaster of Ware, Hertfordshire.

Dental was given at the home of former Emperor Wilhelm at Doorn, Holland, of the report of his betrothal, says a dispatch to the Daily Mail from Doorn.

A decree exempting from duties all cattle and horses entering Mexico will be promulgated shortly, according to official information, in order to assist ranchers to replenish their herds, depleted by years of revolution.

The Mexican Government is heartily in accord with the proposal to establish closer trade relations between Canada and Mexico and better steamship connections between the two countries.

Reuter's Melbourne correspondent cables that there are reiterated demands upon the Federal Government of Australia for resumption of trade with Germany. Imports from Germany are supposed to be absolutely barred, but it is apparent that indirect operations in this line are proceeding to a considerable extent, thereby nullifying the effect of the prohibition.

RHEUMATISM?

Health is the Most Valuable Asset You Have. You cannot Afford to Neglect It.

Croton, B. C.—"I was troubled for years with inflammatory rheumatism and rheumatic fever. I tried several cures for rheumatism, but did not receive any benefit from any of them. I had been in the hospital for months, being unable to walk. A friend advised me to try Dr. Pierce's Rheumatism Tablets. After taking the first bottle I began to improve, and after taking six bottles I had no more rheumatism. I think Dr. Pierce's Aurio is the most wonderful medicine that any one can take for rheumatism. I have recommended these tablets to several of my friends and they, too, have all been benefited by them."

Melville Collinson.

People are realizing that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. If they clog back up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs any one would do well to get Dr. Pierce's Aurio Tablets which are to be had nowadays at almost any drug store or send for Dr. Pierce's Laboratory in Bridgeport, Ont., for trial package and write for free, confidential medical advice.

Boring Power Of Ants

Engineer Found They Had Eaten Through Lead Cable.

An extraordinary instance of the boring power of white ants comes from New South Wales.

An engineer who was repairing a buried lead-covered telephone cable found that the ants had eaten their way inside. They had first bored through an outer covering of timber, which had been purposely steeped in arsenic, then through a layer of soft paraffin, and finally through the lead covering itself.

In spite of their difficult journey and their meals of arsenic and paraffin, the ants were full of life when they were discovered.

A Hundred Dollars Worth For Thirty-Five Cents

When you are awakened from a sound sleep by Cramps, when without a moment's warning pain springs upon you, it's when you would really pay a hundred dollars for the quick relief you would receive from a thirty-five cent bottle of trusty old Nervine. Nothing like Nervine to relieve cramps, stomach gas, diarrhoea and indigestion. Nothing better for Neuralgia, cold in the chest and sore throat. The price of Nervine is thirty-five cents, no more, no less, in all stores where medicines are sold.

British Columbia Rhodes Scholar Lester W. McLennan, Vancouver, of the arts class 1922, University of British Columbia, has been recommended for the Rhodes scholarship.

HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child. It is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from disorders of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach and thus drive out constipation, colic, indigestion, break up colds and simple fevers and make the baby healthy and happy. Concerning them, Mrs. Albert Hamel, Plainville, C. Que., writes:—"Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would, and I can strongly recommend them to other mothers. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Pacific Port Shipments On Increase

Statistics show shipments of wheat and flour from the Columbia River and Puget Sound district to have been 54 per cent. greater during July, August and September than during the same period last year. Shipments to the United Kingdom and Continental ports from the Pacific in September alone amounted to 7,843,000 bushels. One great change in the export grain business is the large movement now being made to the Orient.

An Oil that is Priced Everywhere.—Dr. Thomas' Electric Oil was put upon the market without any doubt over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it began to travel all over the world, and it is now known and priced throughout this continent. There is nothing like it.

A Little Bit of Time

Measuring a Thousandth Part of a Second.

What can happen in the thousandth part of a second?

This question comes to the mind when we hear of the wonderful instrument in use at the Royal Observatory at Edinburgh, Scotland, which Professor Sampson recently described at the British Association meeting.

A wireless signal will travel 186 miles in a thousandth of a second; a ray of light will do the same; an express train travelling 60 miles an hour will cover just under one inch in the time.

It is for registering with great precision the time of any signal that this wonderful instrument has been made. It is an electric detector and records the movements of a tiny spot of light on a moving photographic film. These very minute measurements are becoming more important every day, as it is only by studying the infinitely little that our knowledge of the big things can be advanced.

True Self-Esteem

"That fellow," said a man, as he pointed to a passing youth, "is the most egotistical young fellow I ever met."

"Why so?" asked his companion.

"Well, yesterday on his birthday he sent a collect message congratulating his mother."—Boston Globe.

Most of the shadows of this life are caused by standing in our own sunshine.

Minard's Liniment for Colds, etc.

Adulterated Foods

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

"A vendor came to my home the other day, asking me to buy some foods which he said he was selling on commission for a wholesale house. I felt very sorry for this man, and so I bought a number of things from him. So did my neighbors. We never heard of any of the brands before, and so we are wondering if they contain adulterants. I am enclosing a list of the foods. Could you tell me of any simple method by which a housewife can detect adulterants?"

So writes a woman who probably tried to help in the problem of unemployment and, yet has the health of her family at heart.

To detect adulterant in ground coffee shake some of it into cold water. Pure coffee usually floats, while the average adulterant sinks. Chicory colors the water a brownish red.

To test your lemon extract to a test tube nearly filled with water add one teaspoonful of the extract. If the real lemon is present it will come out of solution and will give a turbid appearance to the solution and will form an oily layer on the top of the water. If the solution remains clear after diluting with water very little, if any, oil of lemon is present.

To detect alum in baking powder put some logwood chips in a small agateware dish, cover with water and bring to a boil. Throw the water away. Do this three times, then save the fourth extract. Fill a test tube half full of water and add one level teaspoonful of the baking powder you wish to test.

Warm it and shake it until effervescence ceases, then add a drop or two of hydrochloric acid to make the solution acid. To this solution add four or five drops of the logwood extract. A bluish red color indicates the presence of alum. A yellow color shows its absence. Try a small bit of alum dissolved in water to become familiar with the color you should look for.

To test for artificial coloring in jellies is the same test that we use for artificial coloring in candies. Place some of the sample in water and boil to dissolve it. Place in this liquid a few pieces of white woolen yarn and boil for five or ten minutes, stirring occasionally. Remove the yarn and wash in hot water. If it remains brightly colored the presence of artificial dyes is shown. To make the test more certain, boil the yarn so colored in diluted ammonia for five minutes. The artificial coloring matter will dissolve in ammonia.

If this is colored and hydrochloric acid drop by drop until the solution is acid, as tested by blue litmus paper. In this solution now place some fresh white yarn and boil. Remove and wash in water. If the yarn is colored the presence of artificial dyes is proved positively.

The chemicals, test tubes, litmus paper and so on required in these tests can be obtained for a few cents at any drug store. An alcohol lamp can be used as a source of heat if not available. Further tests are described in Bulletin No. 100 of the Bureau of Chemistry, United States Department of Agriculture, which may be obtained by sending 10 cents in coin to the Superintendent of Documents, Washington, D.C.

As a veritable effective preparation is the most Great Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

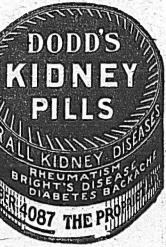

Traders to Visit Canada.

A large delegation of Scottish woolen traders will come to Canada next January to inquire into manufacture and marketing conditions in the Dominion.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Japan Oldest Dynasty in World.

The dynasty of Japan is the oldest in the world, the present ruler claiming to be the 123rd monarch of an unbroken line dating from 700 B.C.

At Christmas—as Always
Macdonald's Satisfies
Nothing could please him better than Macdonald's—a tin of Christmas cheer. It's a gift that will live in fragrant memory—recalled in every grateful puff of the tobacco with a heart.

MACDONALD'S
"Since the Fifties"

Flowers Which Are Injurious.

Poppies have a very injurious effect upon other flowers placed in the same vase, which seems to react upon themselves, as they soon fade and die under such conditions. The same applies to sweet peas, which should always be placed by themselves.

Dyed Her Draperies, Also A Faded Skirt

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to fade, spot, fade, or ruin. Tell your druggist whether the material you wish to dye is wool or silk, or whatever it is, linen, cotton, or mixed goods.

Japan Principal Buyer.

Japan is the principal buyer of British Columbia lead and spelter, as well as British Columbia's second-largest buyer of copper and pulp.

Patronize your local merchant and thereby help to build up your home town and community.

PNEUMONIA

and other Lung Diseases.

Claim many victims in Canada and should be guarded against.

MINARD'S LINIMENT

Is a great preventative, being one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Grippe, Bronchitis, Sore Throat, Asthma and kindred diseases. It is an enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Vancouver, N.S.

Large Zinc Output

Market in Orient Has Relieved Surplus Stock Situation.

The announcement that the zinc production of the Trail Smelter, Canadian Consolidated Mining and Smelting Co., this year will be the largest in the history of the plant has been received with much interest in British Columbia mining circles. The output is said to be nearly 50 per cent. above that of last year. A market has been found in the Orient, important shipments having been made to the east recently thus relieving the surplus stock situation.

Exhausted the Subject.

"Of course, you all talked about me as soon as I left."

"No, dear. We thought you had attended to that quite sufficiently."

Workmen in turpentine factories never have rheumatism.

Vaseline WHITE

Trade Mark.

PETROLEUM JELLY.

An application of "Vaseline" White Jelly brings grateful relief when applied to cuts, burns, chafed skin, etc.

Annual Meeting Of Chinook U. F. A.

At the Annual Meeting of the Chinook U.F.A. held last Saturday the following officers were elected for the ensuing year:

President, E. E. Noble; Vice-President, W. A. McLaughlin; Sec.-Treas., J. P. Watson.

Among the business which came up for discussion was a resolution from Bassano Local asking the U.F.A. to adopt the Grain Marketing Plan of the United States Grain Growers, Inc., and asking this Local to endorse same. This resolution was tabled till next Saturday when it will come up for further discussion, together with other resolutions.

Canada's Call To Women

The Canadian Gazette, London England, recently published an article written by Mabel Durham under the heading "Canada's Call to Women". This article is addressed to the women of the British Isles who are seeking a wider field for the exercise of their abilities, and is written with a view to helping them, by offering some suggestions as to the most practical way in which to take advantage of the opportunities Canada affords. The European Traffic Dept. of the Canadian National Railways have had this article neatly reproduced in booklet form and are giving same a broad circulation in the "Old Country." The article is splendidly prepared and the booklet nicely illustrated and should be effective in directing the attention of British women to Canada.

Election Of Village Council

Quite a keen interest was shown this year in the election of the Chinook Village Councillors which was held on Monday night, when seven aspirants contested for seats on the council. During the two hours allowed for voting quite a large number of the rate-payers turned out to vote, and as a result the first three of the following candidate were elected:

A. L. Robinson 24
H. Meade 20
A. McAlister 15

Chas. Wylie 14
O. Hinds 10
R. Dunn 10
J. McLean 6

Owing to the continued mild weather the roads are becoming practically bare, and the sleighing is very poor indeed.

The U. F. A. at Ponoko has offered the Provincial Red Cross in Calgary a car load of vegetables for distribution in Southern Alberta.

The Farm Loan Board of Saskatchewan has loaned to farmers of that province \$8,250,000 since the Board was instituted. A large part of this huge sum has been provided by the sale of Farm Loan debentures to residents of the province and other Canadian investors.

CLOVER LEAF NEWS

A very pleasant evening was spent at Clover Leaf school on Friday, Nov. 25, it being the occasion of a farewell party for Mrs. M. Ferguson and Mr. J. Ferguson who were leaving to spend the winter in the States. The night was very cold and a good many were unable to be present, but those who were there enjoyed the evening very much. Games, music and a real old-fashioned "visiting time" took up the evening. A delightful lunch was served at the close.

The U. F. A. held their annual meeting last Friday evening when the following officers were elected: President, John Sibbald; Vice Pres., Jim Ferguson; Sec.-Treas., Glenn Robertson. The following are the Board of Directors Messrs. N. Stuart, W. Wilson, J. C. Hess, Mrs. G. Robertson and Mrs. A. Stevenson. The Local is beginning the winter programs with debates and are planning to make the meetings both interesting and instructive. The next meeting will be held sometime in the first week in January.

The Clover Leaf school will close on Friday, Dec. 16. The school and Sunday school are uniting to give a big program on that night with plenty of good things for young and old.

Mrs. J. C. Hess and her daughter, Doris expect to leave for their visit to the States next Monday.

Mrs. Berry is spending a few weeks visiting with her children in Chinook.

The Chinook has made the roads bad for sleighing, but the mild weather is appreciated.

Mr. and Mrs. Stevenson Sr. left recently for Nebraska where they will visit relatives. They were accompanied by their daughter, Emily.

Mrs. Mary Ferguson left recently for Houstonian Mission where she will visit her daughter.

Chinook Curling Club

The following is the line-up of the rinks in the Chinook Curling Club for the season:

J. M. Montgomery, D. Bell, W. Key, all J. Gingles, skip.

Aitken, McKenzie, S. H. South and J. Rennie, skip.

Richardson, Jones, Pollock and Dawson, skip.

McDonald, Yake, Lee and Deman, skip.

Foley, Jordan, Vanhook and Chapman, skip.

Kettys, Wilson, Mead and Wylie, skip.

Levitt, A. Switzer, McLeod and Milligan, skip.

W. H. Switzer, McAlister, Hinds and Cruickshank, skip.

Cliphams, Ray, Butts and Dunn, skip.

A new Highways act will be presented to the coming session of the provincial legislature by Hon. Alex. Ross, Minister of Public Works. The details of this act will be presented to the convention of municipalities held in Edmonton this week.
